

Feedback from local business and employers

It was a pleasure coming into The Milestone School to deliver our dog safety workshops and to talk about what we do in The Dogs Trust. The communication from Jude at the school was swift and very detailed which helped to ensure that I was able to deliver a workshop that was suitable for the learning needs of the pupils in the classes I saw. Everyone I encountered was friendly and welcoming and I had a really enjoyable visit. Thank you for having me!

Charlotte

“Fly2helps previous visits to The Milestone School have been fantastic. All of the staff and students have been really friendly, helpful and engaging. The days have been really well organised with brilliant planning and communication from Jude. The Milestone School have been fantastic to work with and we hope we’ll be able to carry on our work with them going forward.”

Scott

Our level 2 beauty learners at Bridge Training LTD attended Chamwell Centre for a beauty treatment day with Milestone learners. We offered a set treatment menu of the following: manicure, including filing, cuticle work, massage, nail art and polish. Our level 2 learners were assessed over one hour, including the treatment listed and how they communicated and interacted with their clients. It was a fantastic day, and our Bridge learners respected the needs of the learners and worked well within the assessment time and criteria to meet. Our Bridge learners developed higher-level thinking, good oral communication, self-management, and leadership skills”.

The Everyman Theatre is delighted to be working with The Milestone School to offer opportunities and new experiences for their young people.

We welcomed a group of students for a backstage tour and careers talk last summer, and enjoyed their visit as much as they did!

The students were engaged throughout and asked some really considered and well-thought through questions to our tour guides, Katy and Jenny.

The tour and talk was followed up with a fun visit to our Christmas pantomime, Dick Whittington and his Cat Tweedy, which gave the students the chance to enjoy the wonder of live theatre!

I'm sure their visit was enhanced by having more of an understanding of what happens backstage after their tour which must have made them feel more familiar and comfortable in a theatre environment.

Jude is a delight to work with as her dedication and focus to ensure her students are offered every opportunity and experience possible is to be admired.

I have no doubt that the young people are encouraged and inspired by her enthusiasm every day.

We are looking forward to welcoming The Milestone School back in the spring!

To be welcomed to The Milestone School by the students, staff and Jude is always an invitation I would never want to miss. The manner in which the students conduct themselves when in the company of the leadership team at ASDA is always kind polite and well-mannered. Questions raised are relative to the business and you can clearly see and feel the work The Milestone School staff do regarding future careers and activities they set the students. This puts them in a positive mind set for work in the future.
